Andrea Faveri

Computer Science Student · Software Development & Cybersecurity

Ferrara, Italy · +39 351 940 4018 · andreafaveri05@gmail.com · rxsas.it · github.com/RexSAS

Third-year Computer Science student at the University of Ferrara with a strong interest in cybersecurity and software development. National finalist at CyberChallenge.IT 2023 and later a tutor in the same programme. I like building complete products end to end, from a published Android app to a hand-written website.

EDUCATION

B.Sc. in Computer Science — University of Ferrara — Sep 2024 – present

High School Diploma, Applied Sciences — Liceo Scientifico "L. Ariosto", Ferrara — 2019 – 2024

CYBERSECURITY

CyberChallenge.IT 2023 — Participant — University of Ferrara · CINI — Jan 2023 – Jul 2023

- Selected for a 75-hour training programme in cryptography, network, web, software and hardware security.
- Ranked 4th in the local competition and qualified for the national attack/defence final in Turin.
- Found vulnerabilities, wrote patches and developed exploits using Ghidra, Radare2, Binary Ninja, Burp Suite, Wireshark and Docker.

CyberChallenge.IT 2024 — Tutor — University of Ferrara — 2024

- Invited back thanks to my 2023 ranking; taught network and software security in the university labs and prepared students for the national competition.

PROJECTS

Karvo — Android app · Kotlin, Jetpack Compose — github.com/RexSAS/Karvo

- App for ski instructors to log lessons, hours and pay; released through GitHub with in-app self-update. Offline-first: no account, no tracking.
- Fingerprint-protected earnings, statistics and charts, season comparison, CSV import/export, automatic backups before every update, Italian/English UI.

rxsas.it — Personal website · HTML, CSS, JavaScript — rxsas.it

- Hand-written with no frameworks or build step; bilingual, responsive and accessible (reduced motion, keyboard and screen-reader support).
- Interactive CyberChallenge page with a canvas graph driven by a small custom physics engine and a "spot the bug" secure-coding minigame.

WORK EXPERIENCE

Kitchen Assistant — Bar Ristorante Pizzeria Peter, Arabba (BL), Italy — Aug 2026

- Food preparation and kitchen support during the peak tourist season in a fast-paced team.

SKILLS

Programming	Python, Java, Kotlin, C, C++, JavaScript, SQL, Dart, HTML/CSS
Development	Android (Jetpack Compose), Flutter, JavaFX, Git/GitHub, Docker, Linux, MySQL, API integration, OOP, UML
Security	Web security (OWASP Top 10), cryptography, reverse engineering, network analysis · Ghidra, Radare2, Burp Suite, Wireshark
Languages	Italian (native) · English (fluent, B2 self-assessed)
Certificates	BLSD Adult & Paediatric — Italian Red Cross (2023) · Workplace Safety Training, basic & medium risk

I authorise the processing of my personal data pursuant to Legislative Decree 196/2003 and EU Regulation 2016/679 (GDPR).
